

2026 Waldoch/Callaway Silverado Launch Edition

SC **602**

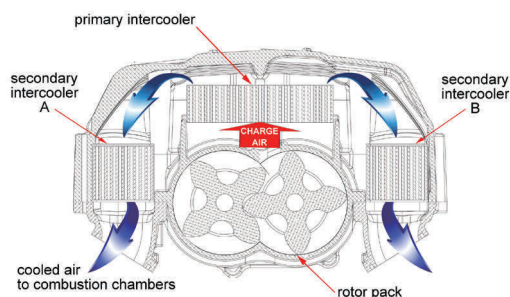

A powerful collaboration.

Callaway Cars Inc. and Waldoch Crafts Inc. have announced the introduction of the 2026 Chevrolet Silverado "Launch Edition". It's the first product from the newly formed Callaway-Waldoch partnership and celebrates the beginning of a collaboration between two longtime specialty-vehicle companies with deep roots in American automotive craftsmanship.

Limited to 100 serialized units, the Launch Edition Silverado features cohesively engineered components from both companies, reflecting a shared commitment to performance, quality, design, and craftsmanship. The "Launch Edition" name recognizes both the debut of the partnership and the performance-focused character of the truck, which is powered by Callaway's supercharged SC602 package.

Callaway GenThree™ Supercharging with TripleCooled™ Intercooling

STANDARD EQUIPMENT

- Callaway GenThree™ Supercharging System
- Callaway TripleCooled™ Intercooling System
- Callaway Carbon Fiber Mid-Engine Covers
- Callaway High-Flow Intake System
- Callaway High-Flow Stainless-Steel Dual Exhaust System with Quad Tips
- CalCal™ – Callaway Engine Control Components and Calibration

CALLAWAY INTERCOOLED SUPERCHARGING

Callaway's GenThree™ TVS 2650 supercharger system boosts engine output to 602 horsepower and 560 lb-ft of torque for breathtaking acceleration and additional hauling capacity. Plus, Callaway's proprietary TripleCooled™ intercooler system utilizes three high-flow heat exchanger elements to reduce inlet air temperature, eliminating power loss typically encountered with supercharged vehicles during aggressive driving. Callaway's "CalCal" engine control components and electronic powertrain calibration integrate the Callaway performance components flawlessly, ensuring perfect drivability and unconstrained warranty retention.

INTAKE SYSTEM

High-flow Callaway intake systems include specifically configured inlet ducts and low-restriction filter elements to supply increased air volume for more power.

EXHAUST SYSTEM

The low-restriction Callaway exhaust system allows increased gas flow for more power and provides Callaway's authoritative, yet unobtrusive "signature tone". Also features a new, electronically-controlled Sport Mode.

SUSPENSION PACKAGE

More than just an off-the-shelf "Lowering Kit", the Waldoch/Callaway Suspension Package consists of engineered chassis components, developed and integrated to provide lowered, level ride height while maintaining ride comfort, improved handling and extended reliability. Includes lowered front uprights, four large diameter dampers with adjustable compression and rebound, tuned front coil-over springs and specific, severe-duty hardware.

BIG BRAKE PACKAGE

Extra-large, 6-piston front powder-coated calipers are mated with 15" slotted rotors for improved braking - especially during spirited driving. The low-dust brake pads are engineered for superior friction and noise suppression with extended pad and rotor life. Stainless steel, braided flexible brake lines and high-temp fluid ensure firm pedal feel.

AUTHENTICITY DOCUMENTATION

The Waldoch/Callaway Launch Edition Silverado SC602 includes select interior, exterior and underhood elements, distinguishing your truck as a unique, limited-edition collectible. Plus, every Launch Edition comes with an Authenticity Documentation Package specific to your vehicle, including a leather-bound Certificate of Authenticity, a welcome letter and other Callaway and Waldoch documentation.

COMPREHENSIVE WARRANTY

Waldoch and Callaway 3 Year/36,000 Mile Limited Warranties supplement the factory GM warranty, providing the most comprehensive coverage of any aftermarket manufacturer.

AVAILABLE NOW

Orders for Launch Edition Silverados can be placed now through Waldoch's extensive network of Authorized Chevrolet Dealers. The Launch Edition is built on 6.2L-equipped 2026 Silverado RSTs sourced from Waldoch's existing vehicle bailment pool, providing a ready inventory base for the limited production run.
